Credential Description

This certificate is given to students who successfully graduated from Clarusway FRONTEND WITH REACT Training after 12 weeks of intensive work.

In this module, the attendants were taught Frontend skills and tools by taking a total of 240 hours of actual live lessons, 10+ assignments, 10+ projects, 1 real life project, and 1 milestone project, 240 hours of practice, on the most demanding technologies as:

- Design complete web applications and websites
- Use HTML&CSS, Bootstrap, SASS, and other styling UI libraries to style their websites and applications
- Use Styled Component, Material UI, Tailwind CSS, and React Bootstrap UI libraries to style their ReactJS websites and applications
- Use Context API, Redux / Redux Toolkit as a State Management tool in ReactJS Projects
- Use Custom Hooks, Firebase, Postman, REST API in ReactJS Projects
- Develop web applications with ReactJS and deploy these apps to popular servers
- Develop Real Life web application with ReactJS and deploy the app to popular servers
- Develop web applications with Typescript and deploy the app to popular servers
- Handle and ensure accessibility and security compliance such as user authentication and access control for an application working online
- Use version control systems, such as Git integrated with Github

Students who successfully graduate from this course completed 9 middle-level hands-on Projects, 1 Real Life Projects and 1 milestone Project. They carried out these projects both individually and as a team member.

- Medium-Level Hands-on Project-1: Checkout Page
- Medium-Level Hands-on Project-2: Weather App
- Medium-Level Hands-on Project-3: Horoscope Page with React
- Medium-Level Hands-on Project-4: NBA Legends App with React
- Medium-Level Hands-on Project-5: Hospital Appointment App with React
- Medium-Level Hands-on Project-6: Shopping Card Project with React
- Medium-Level Hands-on Project-7: Recipe App with React
- Medium-Level Hands-on Project-8: Movie App with React
- Medium-Level Hands-on Project-9: To-Do Project with React Typescript

- Advanced-Level Hands-on Project: Stock Management App with React

- Milestone Project : Blog App (Frontend)

They also successfully completed many tough code challenges and assignments in this process. They completed 240+ hours of supervised pre-class and post-class activities. During this course, students used many tools and methods such as: Clarusway LMS (Learning Management System), Mentoring (Group & 1on1), Workshops, Teamworks, Kahoot, Flip, Peardeck, Zoom, Slack, etc. as well as the skills specified in the certificate.

Fullstack Development Bootcamp prepares individuals for intermediate-level jobs such as:

- Web Developer,
- Front-End Developer,
- Javascript Developer,
- React developer.

Skills

Earning Criteria

- The Participation have to 70% or more in live sessions
- Projects and assignments have to completed
